

## THE RAG AND BONE COLLECTOR

### New Works by Chris Horney

North Carolina artist Chris Horney is now represented in the gallery at R&B. The first table to arrive is the Sofa Table he designed and crafted in woods of maple and mahogany. Chris' works are seen nationally via the "THE ARTFUL HOME" catalog and he is represented across the country in several galleries.

The tables are offered with an introductory price discount of 10%. The sofa table is \$1,999 instead of the market price of \$2,200. Matching end tables, coffee table and mirror are available.

We will work with you and Chris to create his designs in your tastes with regard to size, and woods.

### Art on line...only here at R&B

Our business partner, Artaissance, is continually adding to the on line inventory of art. You can purchase art from your computer and have the print (on paper or canvass with giclee techniques) sized for the space in your home. The art will be delivered to R&B for your approval and framing. There is no risk to you...we guarantee the quality or all money is returned.

For one month beginning August 15, we will be offering framing with a 15% discount of any pieces bought through Artaissance. Further, if you purchase more than one piece from Artaissance, we will discount the art on the additional pieces up to 10%.

So please visit [www.ragandboneart.artaissance.com](http://www.ragandboneart.artaissance.com) and browse the many images, all of which are available exclusively from Artaissance.

## **GALLERY ADDITIONS and recent projects**

The gallery inventory is growing and includes oil and monoprint works by Newporter Trish Hurley, and Newport photographer Meriah Burman. North Carolina is represented by Chris Horney and his wonderful hand crafted tables. Complimenting the tables are the lamps by Massachusetts artist Janna Ugone.

We continue to add new frame designs to our collection of **over 850 fine Larson-Juhl frames.**

Shadow Box projects completed recently include a Chinese horse blanket, and two ceramic vases.

We are always shopping and upgrading the quality of the inventory. Japanese watercolor artist YOZA is represented by two new images framed in an unusual manner with no mattes, just glass and the frame. So, please stop in and see it all.

**Saturday hours now 10-2**

## **JAMESTOWN HISTORICAL SOCIETY AUCTION**

Eileen Muldoon (1st place 2006 Newport Art Museum Juried Exhibition) invited us to participate with her in offering a work to the Jamestown Historical Society Auction. It was auctioned well above the reserve price making a nice contribution to the society. To see more of Eileen's work, watch for the announcement of a solo show of her work at R&B later this fall.

The rendering shown here is how the Society building will look after the current renovations are completed.

## **Plum Beach Lighthouse**

R&B will soon be showing a stunning photograph of the Plum Beach Lighthouse by David Zapatka. It is a perfect image for a den or office of anyone who loves the lighthouse. We are providing the image at our cost and will encourage you to donate to the PBL association and their preservation program.
